

Kartik

👤 Profile

I am Kartik Rohilla, a dedicated student passionate about cybersecurity and web development. After completing my 12th grade in 2023 and a year of IIT-JEE preparation, I chose to pursue a [B.Tech](#) in Cybersecurity. With skills in HTML, CSS, TailwindCSS, and Python, I have created over 10 websites for clients.

My interests include exploring apps, mobile platforms, and websites, as well as using AI tools like ChatGPT. I draw inspiration from spiritual readings, such as the Bhagavad Gita, and cherish the support of my family in Kanina, Bharaf, and my mentor, Ashish Agarwal Sir.
